Skills

C#, ASP.NET (MVC, Web API), SQL, JavaScript, React, CSS, Git

Experience

Carter Logistics, Applications Developer
Jan. 2024 - Present

- Key role in the design and development of a new internal app used to invoice customers.
- Maintain business applications, namely a cross-docking app, which manages incoming and outgoing freight.
- Use C#, ASP.NET WebAPI, MVC, React, MSSQL, Git, Azure DevOps, Kendo.

HealthStream, Software Developer
Nov. 2022 - Jan. 2024

- Worked in an Agile environment on the company's flagship product - a learning management system used in all 50 states by about half the hospitals in the US.
- Implemented new features, fixed defects, and refactored to higher coding standards.
- Used C#, ASP.NET MVC and WebForms, MSSQL, TFVC, Azure DevOps.

Indiana Department of Transportation, Senior Applications Developer
Nov. 2021 - Nov. 2022

- Finished as owner of the department's system for permits - a web app where the public can apply and the state can grant permits for things like road construction, signage, broadband installation, etc.
- Gathered requirements, planned features, fixed defects, developed, and deployed.
- Used C#, ASP.NET MVC, Oracle, Git, Azure DevOps, Telerik UI (Kendo).

The Peace Corps, Volunteer
Aug. 2008 - Jan. 2011, Kiev, Ukraine

Microsoft Certifications

AZ-900: Azure Fundamentals, DP-900: Azure Data Fundamentals

Education

Purdue University, June 2008 - *BA Literature*
